

44 OPEN
ALL YOUR DREAMS ON BOARD

**NAUTITECH**
ELEVATE YOUR DREAM

A design focused on functionality combined with spaces, built around a central living element which reinvent conviviality on board. The multifunctional work surface creates the link between the different living areas and naturally becomes the heart of the boat. A sense of details and the ergonomics have been used to optimize the circulation on board and to preserve the right balance between the interior and the exterior.

COMFORT

A UNIQUE LIVING SPACE

Narrow water entries, hull chines and forward rake of the reversed bows are the key points of this 44 Open, offering a perfectly balanced catamaran. The helm stations have been designed to integrate all the functions necessary for navigation while fitting perfectly into the contemporary style of the boat. For greater comfort and safety, all maneuvers are made from the cockpit.

A white Nautitech sailboat is shown from a side profile, sailing on a blue sea. The boat has a black boom cover with the 'NAUTITECH' logo. The background features a tropical island with palm trees under a clear sky. The overall scene is bright and serene.

PERFORMANCE

A DYNAMIC DESIGN,
A MARKER OF RECOGNIZED PERFORMANCE

Marc Lombard and his team have done a pure synthesis of Nautitech DNA to offer a unique sailing experience. The design is enhanced thanks to the subtle match between the hull and the roof lines.

With family, friends or in couple, the spaces are designed to enjoy every moment of the day and offer a unique travel experience. The modularity and variety of equipment on board offer the possibility to configure this catamaran according to each program.

NAUTITECH CATAMARANS: THE PERFECT BALANCE BETWEEN PERFORMANCE AND COMFORT

My relationship with NAUTITECH CATAMARANS, started in 2009 with the design of the Nautitech 54'. The brief was to create the perfect balance between performance and comfort, for private customers who are keen sailors but want the comforts of modern living too. We also wanted to appeal to sailors who charter a yacht, but do not want it to just be a floating caravan. What I mean by «performance» is genuine sensations at the helm, good top speed when conditions are favourable, and more specifically, high average speed upwind and downwind, without forgetting the important aspect of the time spent motoring, which is frequent with long-distance cruising. And all this without ever having to worry about safety in family navigation conditions. On deck everything is designed to be simple and reliable, easy to be manoeuvred by a reduced crew.

Marc LOMBARD
Naval Architect

A LONG-TERM VISION PROMOTING EXCELLENCY

Running a successful shipyard is a dream come true for the team behind NAUTITECH CATAMARANS. Passion for the sea and shipbuilding is shared throughout every department, and this passion is a fundamental foundation for our company. We believe that navigation must be at the heart of a multihull's DNA. While the current market trend increasingly promotes the catamaran experience as a static one, we design boats that are remarkable when stationary and when blue water cruising. Our customers expect us to be able to sail by maximizing their experience on the water as well as the sensations felt. It is therefore imperative for us to project the future of our catamarans in solutions combining ease of use, comfort in navigation, performance, safety in all wind conditions.

Gildas LE MASSON
CEO

THE BRAND

It is in Rochefort sur Mer, the very cradle of shipbuilding and naval architecture and birthplace of Pierre Loti, that NAUTITECH CATAMARANS has anchored its activity of construction of luxury catamarans. Anyone familiar with the world of multihulls can quickly appreciate the innovative nature of NAUTITECH CATAMARANS, the first manufacturer to understand and define the very spirit of a catamaran. Nautitech were also the first to propose the concept of open living onboard, that combines the saloon and cockpit into one spacious, functional living area. Understanding how important sensations at the helm are to their customers, NAUTITECH CATAMARANS places equal emphasis on sailing ability and comfort.
